

Exhibition and Congress Centre

Dla Inwestora

The Exhibition and Congress Centre in Opole combines a modernist design with a functional interior and modern equipment. In addition to an impressive amount of exhibition and conference space, the building features great infrastructure which lends itself well to organising all kinds of company events, themed meetings, panel discussions and exhibitions. Professional fashion shows, go-cart races, concerts requiring extensive stagecraft, lectures for a thousand listeners – these are only some of the event types the building can accommodate. The ECC offers 2500 m² of exhibition space, free parking for 300 cars and coaches, an EV charging station and 23,000 m² of space for outdoor events. The building is quickly and easily accessible from Wrocław and Katowice – the A4 motorway runs close to the city centre, offering good access to the nearest airports in Wrocław and Katowice.
